

ECG Report

12-lead electrocardiogram

PATIENT	Admin Patient
STUDY DATE	15 Apr 2026
MODALITY	12-lead ECG, resting
REFERRING DOCTOR	Dr. Dilnoza Rashidova, Cardiologist

Measurements

Heart rate	72 bpm	60 — 100
PR interval	156 ms	120 — 200
QRS duration	92 ms	80 — 120
QT / QTc	402 / 432 ms	350 — 450
P axis / QRS axis	52° / 38°	0 — 75

Findings

Normal sinus rhythm. Normal axis and intervals. No acute ST-T wave abnormalities. No evidence of ischemia, infarction, or chamber enlargement. Compared with prior tracing from 18 Aug 2025: no significant change.

Impression

Within normal limits.

This is a sample document generated for the Shifo demo. Not a real medical record.
